VETERANS CALL

CREATOR'S MIND CARES4US INITIATIVE

THE VETERAN CALL

Gallant men and women who have dutifully served their nation but went through a lot of suffering that impacted their wellness over time.

Social and spiritual wellness struggles include isolation, lack of honor, shame, unforgiveness, stress, Grief, moral injury, and substance abuse incurred during years of service with little or no time to make meaning of these situations and find a path to healing.

Also, our younger generation going into the military to continue the fight for our freedom and peace need mentoring, encouragement, and continuous support.

How can they get mentored?

VETERANS BOOK OF WISDOM

By The Creator Care Initiative

Book Project

The book will honor our Veterans sacrifices, and serve as both a memoir and a tool While spotlighting valuable lessons and wisdom to live better lives after military service for both present and future generations
